Abhinav Nair

AI/ML Engineer

Portfolio: myself1625.netlify.app
github.com/Ohyesabhi28
linkedin.com/in/abhinav2825

Computer Science (AI) undergraduate with a strong foundation in analytical and logical problem-solving, data engineering, and Python-based automation. Experienced in building and shipping data-driven systems end-to-end — from predictive models to production APIs — and in quickly learning new business domains under tight deadlines. Comfortable working across math, code, and client-facing delivery.

SKILLS

Programming & Query	Python, SQL
Analytics & ML	Machine Learning, Deep Learning, Predictive Modeling, Data Analysis, NumPy, Pandas
Cloud / Tools	AWS Lambda, API Gateway, Amazon S3, Amazon Bedrock, Git, GitHub
Core Areas	Data Engineering, API Development, Business Problem Solving, Cross-functional Collaboration

EXPERIENCE

XMinds Infotech | *Backend Developer Intern* Dec 2025 – Jan 2026

- Developed and tested backend services and APIs in a production environment, working directly with senior developers to meet delivery deadlines.
- Collaborated with cross-functional developers on backend architecture and REST API design, translating business requirements into technical solutions.
- Contributed to backend reliability and API functionality, maintaining quality standards under real production constraints.

EDUCATION

Amrita School of Engineering, Amritapuri	2023 – 2027
B.Tech in Computer Science and Engineering (Artificial Intelligence)	CGPA: 8.44/10
Mount Litera Zee School, Goa	2023
Class XII (CBSE)	79.4%
Mount Litera Zee School, Goa	2021
Class X (CBSE)	94%

PROJECTS

Multimodal Political Meme Classification | PyTorch, Hugging Face, Swin Transformer, Malayalam-BERT Apr 2026 – Jul 2026
Machine Learning

- Developed a multimodal hierarchical classification model by integrating Malayalam-BERT and Swin-Tiny using a lightweight residual fusion architecture.
- Evaluated 9 multimodal fusion strategies and improved macro F1-score by **28.1%** through targeted minority-class data augmentation.
- Built an end-to-end deep learning pipeline with hierarchical classification, 5-fold cross-validation, and multimodal feature fusion, achieving a **0.5218** macro F1-score on the benchmark dataset..

NeuroTidy — AI Code Review Platform [GitHub] Feb 2025 – Apr 2026
Python, AWS Lambda, Amazon Bedrock

- Built a serverless AI-powered code analysis platform for automated Python and ML code review using AWS Lambda and Amazon Bedrock.
- Integrated 17+ custom static analysis rules for automated Python and ML code review and bug detection.
- Developed a GitHub Pull Request bot to automate AI-based code review workflows and developer feedback.
- Detected critical ML issues including missing gradient resets and incorrect loss function usage.

ACTIVITIES

Vidyut National Level Multifest, Amrita Vishwa Vidyapeetham May 2025
Coordinator — Non Tech Committee
- Coordinated the Candlelight Concert event attended by 200+ participants during the Vidyut multifest. - Assisted in organizing and managing multiple fest activities and events.

Certifications

- Data Analyst - Big 4 Ready — OneRoadmap [\[Link\]](#)
- McKinsey.org Forward Program — McKinsey & Company [\[Link\]](#)
